

Table 7.3. Occurrence of insects and mites on brambles during the growing season.**Insects and Mites**

A = aphid

CB = cane borer

JB = Japanese beetle

M = mite

SB = sap beetle

TC = tree cricket

TPB = tarnished plant bug

Timing	A	CB	JB	M	SB	TC	TPB
Dormant	-	++	-	-	-	++	-
Bud Break	-	-	-	-	-	-	+
8" Shoots	-	-	-	-	-	-	++
Petal Fall	+	+	-	+	-	-	++
Preharvest	++	+	+	+	++	-	++
Midharvest	++	+	++	++	-	-	-
Postharvest	++	++	++	++	-	+	-

+ = pest present, possible control; ++ = proper timing of control; - = control generally is not needed at this time
